## Description :

Prsentation de l'diteurTakes readers step-by-step through the process of creating custom tasks for use in SAS Enterprise Guide and SAS Add-In for Microsoft Office. Using standard off-the-shelf development tools for Microsoft .NET, you'll learn how you can hook in your custom processes and make them available to a wide range of SAS users.Prsentation de l'diteurTakes readers step-by-step through the process of creating custom tasks for use in SAS Enterprise Guide and SAS Add-In for Microsoft Office. Using standard off-the-shelf development tools for Microsoft .NET, you'll learn how you can hook in your custom processes and make them available to a wide range of SAS users.Biographie de l'auteurChris Hemedinger has been with SAS since 1993. In that time, he has been a writer, a software developer, and an RD manager. He was on the founding team for SAS Enterprise Guide, leading the development team for 10 years. Today, Hemedinger is a principal technical architect in SAS Professional Services (also known as "consulting"). He is also

coauthor of SAS For Dummies and writes The SAS Dummy blog at <http://blogs.sas.com/sasdummy>.
