And Fever of the Bone is among her best. Quatrim de couverture He is psychologist and criminal profiler Dr. Tony Hills worst nightmare a killer driven by the most perverted hungers and unmoved by youth and innocence, a killer with a long shopping list of victims who leaves no trail. The murder-mutilation of teenager Jennifer Maidment is horrific enough on its own, but Hill quickly realizes that its just the beginning of a chilling campaign targeting an apparently unconnected group of young people victims that the monster has been grooming through a social networking site. It is a case that is reawakening ghosts of Tony Hills past. And the longer it takes to uncover a motive and a maniac, the more innocent youth will die.
