Description :

Prsentation de l'diteurThe way we study for exams is broken. Have you read books on study skills before but your results aren't improving? Are you looking for a practical approach that actually works? You're not alone.Studying as an adult can be a difficult, lonely business. This book is for anyone who feels lost or intimidated when it comes to exams, anyone who feels like the grades they're getting out don't match the work they're putting in."Studying Evolved" is a clear and friendly guide to supercharging your revision using a simple systematic approach. It's studying without the blood, sweat and tears.Prepare to learn:- how to avoid the costly mistakes most students make- powerful tools and strategies that you can use straight-away for a quick boost- why you don't need to put a gun to your head to get motivated- how to pin point why you're struggling with difficult topics and get unstuck- how to work in tune with your memory instead of battling against itAre you ready to get dangerously good at taking tests?
